We have been working closely with the fantastic team at Opera Holland Park, on an amazing opportunity to introduce FlexilooFirst™ cubicles, easy access cubicles, urinals and vanities into a marquee at Holland Park, Kensington ready for their Opera Holland Park events this summer.

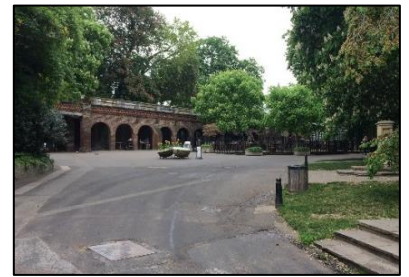

The organisers of the event felt it necessary to move away from chemical toilets that had to be located outside the theatre, emptied regularly and required large amounts transport on and off the site and toward the flexibility of being able to erect free standing vacuum toilets into a marquee inside the theatre grounds.

FlexilooFirst™ was enthusiastically received by the audience on the opening night of Puccini's *La Rondine*. A full house meant that FlexilooFirst™ was put to the test and proved to be an all-round success!

If you have the chance to visit Opera Holland park this summer, be sure to keep your eye out for Flexiloo™.

Flexiloo™ has now got a new video!!

Have you ever wondered how FlexilooFirst™ works? How easy it is to transport and set up?

Well wonder no more, simply follow this link

<https://www.youtube.com/watch?v=8PMQkKfH44Y>

Watch how FlexilooFirst™ can transform any space into luxury toilet facilities.

If the link does not work, simply go to <http://www.flexiloofirst.co.uk> where it is located on our homepage.
