# FLEXILOO

## New Flexiloo Website!

A belated Happy New Year to you all!

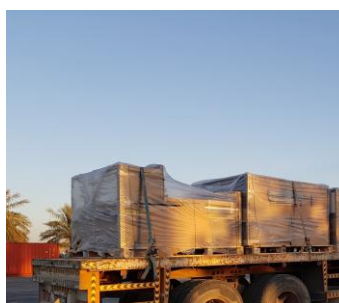

After a lot of hard work by our designers *eNotions*, we are extremely pleased to announce the launch our new Flexiloo website! It has a clean, fresh look about it and contains details of our products, photo gallery, news, data sheets. Many thanks to our valued customers *Zoo Loos*, *Al Laith* and *D&P Luxury Toilets* who provided us with excellent testimonials – the cheques are in the post! 😊

Check it out at [www.flexiloo.co.uk](http://www.flexiloo.co.uk)

*Zoo Loos* are a great advocate of the FlexilooFirst system, both in the UK and overseas, and are in the process of adding more equipment to their repertoire in preparation for the 2019 summer season. In addition to that, we are going to be turning Red Square green by supplying additional FlexilooFirst equipment to one of our customers in Russia!

## Flexiloo goes to Riyadh!

Back in early December we sent two full containers of FlexilooFirst to Riyadh for the ABB FIA 2018 Formula E Saudia Ad Diriyah Championship. Andrew then spent a week on site to oversee the installation to ensure that the Crown Prince, Mohammed bin Salman, had the very best royal throne at his disposal!
